PROFESSIONAL SUMMARY

Aspiring full-stack developer skilled in React, Node.js, and Flask. Passionate about building scalable applications through clean code and continuous learning. Eager to contribute my problem-solving skills and growth mindset to an innovative team.

EXPERIENCE

While I may not have formal industry experience yet, I've built several full-stack projects independently that demonstrate my ability to plan, develop, and deliver real-world applications. I'm a fast learner, passionate about solving problems through code, and committed to making meaningful contributions to any team I join. Here are my projects;

1. DAILY SCOOP

Role: Fetching Data from an API.

Built a personalized news aggregation web app using React, Tailwind CSS, and NewsAPI. Integrated Firebase for user authentication and real-time data updates.

- Created personalized news feeds with filtering and search functionality
- Implemented user authentication and protected routes using Firebase
- Designed responsive UI with Tailwind CSS

Live link : [Daily scoop](#)

2. CONTACTMATE

Role: Frontend Development.

A contact management system with full CRUD capabilities, built using React and LocalStorage.

- Implemented filtering, search, and editing features
- Styled components with Tailwind CSS

Live link : [ContactMate](#)

3. EMI-CALCULATOR

Role: Backend Development

Created a Flask-based loan calculator with a detailed amortization breakdown.

- Backend logic built with Python and Flask
- Styled with HTML and CSS

Live link : [Emi-calculator](#)

4. NUMBER HUNT

Role: General Practice.

Developed a browser-based number guessing game featuring multiple difficulty levels and score tracking.

- Used vanilla JavaScript to manage game logic and state
- Implemented responsive design with HTML5 and CSS3

EDUCATION

TWIN BIRD JUNIOR SCHOOL: -2019
Certificate of Primary Education
Mark: 327

St. Peter's Minor Seminary: 2020 – 2023
Certificate of Secondary Education
Grade: B

Moringa School: 2024-2025
Certificate of Software Engineering

SKILLS:

TECHNICAL:

- **Frontend:** React, Tailwind CSS, Bootstrap, Framer Motion
- **Backend:** Flask (Python), Node.js, REST API development, JWT authentication
- **Database:** SQLAlchemy and SQLite.
- **Authentication:** Email/password login, JWT, Google & GitHub OAuth, email verification, password reset flows
- **DevOps & Tools:** GitHub Actions (CI/CD), Git, GitHub, Cloudinary, Vercel, Netlify, Render
- **Other:** Responsive design, RESTful APIs, testing with Pytest, version control (Git)

SOFT SKILLS:

- **Communication:** Can explain technical ideas clearly and collaborate effectively
- **Teamwork:** I am comfortable working in team environments and contributing to shared goals
- **Problem-Solving:** *I enjoy debugging challenges and coming up with efficient fixes.*

- **Adaptability:** I am a quick learner, open to feedback, and comfortable working with new technologies
- **Attention to Detail:** Am focused on writing clean, maintainable, and user-friendly code

REFEREES:

Fr Elijah Namwaya: Was my vice rector back in the Minor Seminary school
